#### **DETAILED ACTION**

This Office action responds to the election filed on 9/6/2005.

### Acknowledgment

1. The election/preliminary-amendment filed on 9/6/2005 has been entered. The present Office action is made with all the suggested amendments being fully considered. Accordingly, pending in this Office action are claims 1-8.

#### Election/Restrictions

- 2. Applicant's election without traverse of 1-4, 6, and 7 in the reply filed on 9/6/2005 is acknowledged. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5 and 8. directed to the species of figure 4 (species 2) no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.
- 3. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation

or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

# Drawings

4. Figures 1A-1J should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

# Allowable Subject Matter

- 5. Claims 1-8 are allowed.
- 6. The following is an examiner's statement of reasons for allowance:

None of the references of record show or can be fairly combined to render obvious a method of manufacturing a magnetic-field detecting-device characterized by the step of cutting off the edges of a substrate to insulate each of the coil lines of a coil from each other. One of the best pieces of art, Bhagat (US 5070317), differently

Application/Control Number: 10/784,479 (Allowance)

Art Unit: 2814

insulates the coil lines of his two coils by a step of forming a metallic layer within grooves of an insulating film (see, e.g., fig. 14B).

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### Conclusion

- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tang (US 20040244488), Lee (US 6030877), and Qian (US 6166422) all teach a method of manufacturing a magnetic device similar to the one of the instant invention including a magnetic core interposed between a pair of coils.
- 9. Papers related to this application may be submitted directly to Art Unit 2814 by facsimile transmission. Papers should be faxed to Art Unit 2814 via the Art Unit 2814 Fax Center. The faxing of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (15 November 1989). The Art Unit 2814 Fax Center number is (571) 273-8300.
